> In church affairs the deceased was very prominent, and showed in his daily walks of life to be the true Christian. He was a leading member of the Pleasant Street Congregational Church, being treasurer of the Sunday school, a member of the standing committee, and holding other minor offices. He put his whole soul into the church work.

> Truly, Mr. Noyes was a broad-minded and liberal man, and loved by all who knew him, for he always had a pleasant word and smile for each and everyone he met in daily life. He was of a most kindly and genial nature, and, while being a great sufferer in recent years, bore the same with fortitude. In town affairs he took a deep interest, always looking to its interests, he having served on the school board, until poor health forced him to retire.

A GOOD MAN GONE.

Through the death of Edmund W. Noyes a good man has fallen by the way Mr. Noyes was held in high esteem by all Arlington. Upright and honest in every relation of life, he drew to himself a host of warm hearted friends. Mr. Noyes was of New Hampshire birth, so that he early learned the lesson of earnest industry. As a boy he found employment in a printing office in Boston, He showed from the start that he was bound to succeed in whatever he undertook, and so he was not long in finding promotion. Still in his teens he became a member of the 36 Mass. vols., and served bravely for three years in the war of the rebellion. It would have made but little difference with Mr Noves, in whatever interest he might have engaged himself, for whatever he did he did with a whole heart. True to home and to his adopted town he will be sadly missed, for he was, as one of clergymen of the town said to us the other day, "the very soul of honor." All Arlington was saddened as the news of his death reached town from the west. The bereft family will receive the deepest sympathy of this immediate public.

We hasten to declare at the very out set of our discussion of the above heading that we believe in organizations hardly a community that does not have club. Indeed we know those who spend ours! "The Lord is my shepherd: I club. Now it doesn't matter what the down in green pastures; he leadeth me

There is many a layman who in his own Hampshire is likely to succeed the Hon. Even the church has no right to step in between the individual and the work which primarily belongs to him or her. To more directly come to the point we have in view, it is to be the home first, last and all the time, and all things must be subordinated to it. It is evidently true that here in Arlington as well as elsewhere club life is absorbing too much of the time and interest of professional life. Still we are not to be or more Arlington men, graduates of many of our men and women. Whenever you find the husband and wife but seldom at home of an evening you may know for an absolute certainty that there is something wrong in the domes- prevailing thought. "WHO OWNS THE MOUNTAINS?"

The above was the suggestive quesdiscussion of real ownership. Some one has asked, "what is property after all? The law says there are two kinds, real and personal." "But it seems to me," says the writer, "that the only real property is that which is truly personal, that which we take into our inner life, and make our own forever, by understanding and admiration and sympathy and love. This is the only kind of possession that is worth anything."

A few years ago we heard an eloquent sermon preached in Dubuque, Iowa, upon this very thought of true possession, and we shall never forget how the minister insisted that the magnificent bluffs of that western city was his, although he had no title-deed to show for it. He exclaimed in an impassioned way, "these western skies so delicately tinted, the first blush of the morning, these quiet peaceful valleys, all this wonderful landscape view and water I but have the capacity to take them in. And what is fortunate, no man can take them from me." And so the father, with the mountains looking down upon him, said to the boy, "You and I are very rich, we own the mountains." Who shall consider himself poor when

Mrs. Atherton is a bright intellectual woman, so she makes interesting and instructive any subject she may discuss. She portrayed this hurry mania of the American peaple in a vivid way. She applied her subject particularly to those of her own sex who take active part in club life. During her reading she said that any woman who was obliged to keep an "engagementbook," that she may know when her return call is due, should cry a halt. Mrs. Atherton believes that a reasonable amount of time should be taken for the performance of each and every duty in life. The paper proved a delightful treat to the alliance. The "colonial supper" at the Congregational church on Thursday evening more than realized the expectations of the ladies who planned it, and of those who had the good fortune to be present. Fully two hundred people enjoyed a repast which recalled the memory of bygone days. The pies and doughnuts and baked Indian pudding were delicious, while the ham and tongue, beans and brown bread left nothing to be desired. > There was a suprisingly large attendance, considering the storm, at the people's service on Sunday night at the Baptist church. The choir was there in force, and its opening number was sweetly devotional. The congregation entered into the singing with great enthusiasm, and with the intensely practical subject of the preacher, made the service very uplifting. Dr. Watson was evidently handling a theme upon which he has strong and mature convictions; for his utterance was rapid, free from any notes whatever, and with that exhuburant ease which comes to a speaker when he himself is immensely enjoying ter, chap. iii., verse 17: "Whatsoever ye do in word and deed, do all in the name of the Lord Jesus." He said, in part, that one could have his choice between several themes struggling for the preemineace in such a text as this: Religion in the common places, home-made religion, home-spun piety, religion of your own make, or religion as a working theory. Paul's chief desire seemed to be to make it clear that the religion he preached was a seven days in the week affair, He was not talking about missionary, evangelistic, devotional doings, but about all doings, "in word and deed." Nothing could be more comprehensive or practical, nothing more continuously on the solid earth where each of us have to be and do. Theory and practice too often suggest difficulty and distance. The secular and the religious also do. But a real religion which is itself a working theory does not suggest either difficulty or distance. Difficulty comes when you have one theory to dream about on Sunday and another to work on on Monday. Paul seemed to be more solicitous about a religious Monday than a religious Sunday. And if there was any religion discoverable in the common deeds of Monday he wanted the source of it acknowledged. He saw the name of his master written over everything that was good everywhere. All patience, all kindness, all gentleness, all faithfulness had a look in his direction. Everything good was godlike in its essence, and he wanted us to see the Lord in it and acknowledge him. Then the Lord would become a motive for doing, and nothing would be done that we could not do in The annual business meeting of the his name. Paul wanted us to get help essiest. So he wanted a working theory theory. It is one that for our modern are crowding religious exercises to the wall. According to the old-fashioned distinction, the secular has a monopoly of everything: the religious losing even the little that it has. What shall we do? We must have a new working theory that will give the secular all the religion that belongs to it, and thus all deeds in the name of the Lord. We are wrong then in considering religion as consisting only of public or private devotions, of going to church, hearing preaching, observing ordinances or ceremonies. We are wrong when we consider religion as too dainty, too fastidious, too fragile for common places, daily words and deeds. As something wholly distinct from even the sweetest and noblest sacrifices, masteries and unselfishnesses of home life. Is there no religion in the putting away of weariing daily toil, and having smiles of boy that R. L. Stevenson tells about, crossing the continent, befriending the poor homeless strangers in common things, so tuat as he opened each coach door to utter some kindness, a joy came over the emigrant faces like that when mortals have a vision of angels. It was wall miners with his gospel. And even resound with sweet hymns of Christian pleased everybody, while Miss Grace me a chance to do a little good, and Lockhart sang "Annie Laurie" with that's all I am." And the legend says much sweetness of tone and artistic that St. Anthony knelt down and kissed skill. Great warmth of social feeling his feet. It beautifully illustrates Paul's

entertained the Highland Whist club. Mrs. Livingstone won first ladies' prize and Mrs. Baxter second. First gentlemen's prize was won by Mr. Partridge, second by Mr. Baxter, and souvenirs by Mr. Perry and Mr. White.

On Thursday afternoon the Woman's Benevolent society connected with the Baptist church met at Mrs. Tingley's, Westmoreland avenue. A good number were present, and several ladies were added to the list of members. Good work was done, and several garments were near completion.

A pleasant company was entertained the other evening by Misses Mary and Eleanor Butler. Whist was the leading feature of the evening. The spread was furnished by Caterer Hardy. The prizes est in three strings with team 4. were awarded to Miss Mamie Currie and Clarence Oaks. Solos were rendered by Miss Lillian Currie, and Mr. McCarthy gave two or three tenor solos. Mr. John Dow rendered selections on the piano.

On Thursday evening the Literary Union held a mock town meeting in the Park avenue church. An interesting discussion was had of several articles of the warrant. Herbert Stone and Minot Bridgham drew up the articles discussed, Ed. Nicoll signing them officially. One of the articles Proposes the establishment of a matrimonial bureau, which begat an especial interest. The evening was enjoyed by all present.

A delightful reception was tendered to Mr. and Mrs. Finlay Cameron at their cosy and attractive flat, No. 1251 Massachusetts avenue, on Tuesday evening. The affair was informal, and at the same time social and pleasant. Ice cream and cake were served. Several songs were effectively rendered by little Robina Smith of Somerville. Congratulations and gifts were showered upon the newly-wedded couple, and all went 'merry as a marriage bell.'

The services at the Baptist chapel on Sunday evening were of a rather unusual but exceedingly interesting nature, and notwithstanding the inclement weather, were attended by a large and appreciative audience, which comprised and comfortable place of worship recently dedicated, and appreciate the kindly and courteous welcome we refind here and there a congregation which class. takes an interest in the stranger within evening took the form of a song service. Balzac a Terror to Printers.

With no inborn literary facility, with an inborn artistic conscience that drove him on in untiring pursuit of perfection. Balzac filled the vast chasm between his thought and its expression with countless pen strokes and by methods of composition all his own, the exact reverse of those of Dumas, writing at white heat, never rewriting. or of Hugo, who said, "I know not the art of soldering a beauty in the place of a defect, and I correct myself in another work."

Balzac began with a short and sketchy and slipshod skeleton, making no attempt toward sequence or style, and sent it, with all its errors, to the printer. Proofs were returned to him in small sections pasted in the center of huge sheets, around whose wide borders soon shot from the central text rockets and squibs of the author's additions and corrections fired by his infuriated fist. The new proofs came back on similar sheets, to be returned to the printer again like the web and tracks of a tipsy spider. This was repeated a dozen or, it is said, a score of times, always with amplifications, until John Bull was cheating them that they his typesetters became palsied lunatics. He overheard one of them as he entered the office one day say: "I've done my hour of Balzac. Who takes him next?" Typesetter, publisher, author, were put out of misery only when the last proof came in. at its foot the magic "Bon a tirer."-Scribner's.

General Grant Owns Up.

When General Grant came to Liverpool and was entertained at the town hall, a quite unknown Liverpool man wrote to the mayor with many apologies, but asking if he might take the liberty of asking for a few minutes' conversation with the great soldier. The mayor hesitated, but found a way of mentioning the matter to the great man. who, without hesitation, said, "Certainly; let the gentleman come." He came. He said to the general: "Now, sir, utter amateur as 1 am, I have followed every step of the war, and I think I understand every movement except one. On such a day you were there and the southerners at the gate except when on an errand were there," pointing to plans on a with a prescription to the drug store or map that he had brought. "Now, it seems to me that you ought certainly to have gone there, whereas you went there," pointing again. General Grant, the usually taciturn and when not taciturn phenomenally terse, just took the cigar from his mouth and said: "You're right, sir! Infernal blunder! And in a moment the amateur strategist, beaming now, was courteously dismissed .- "That Reminds Me," by Sir Edward Russell.

A Natural Mistake.

A few years before his death Allen G. Thurman of Ohio was engaged as counsel in a lawsuit which was tried before a country judge in one of the small towns in the central part of the state. Opposing Judge Thurman was a young lawyer named Cassidy, who wore his hair pompadour, assumed an air of great dignity and was apparently greatly impressed with his own importance. Upon several occasions during the progress of the trial Thurman referred to his legal opponent as "Mr. Necessity." The young man arose whenever this occurred and with great gravity reminded the court that his name was Cassidy. Finally, after the offense had been repeated about a dozen times, the pompous attorney exclaimed:

"I must again remind counsel upon the other side that my name is Cassidy. I can't understand why he persists in maintaining that it is Neces-

"I beg the gentleman's pardon," said Thurman. "The reason I keep getting him confused with Necessity is, I presume, due to the fact that the latter knows no law."-Chicago Times-Her-

The First Telescopic Comet. "On the evening of Oct. 1, 1847, the

Mitchells were entertaining a party of invited guests," writes Amelia H. Botsford of "The Mother of the Stars" in The Ladies' Home Journal. "But Maria Mitchell was not to be deterred by 'company' from following her custom of sweeping the heavens with the telescope every clear night. She slipped away and ran up to the observatory Soon afterward she returned and told her father that she thought she had seen a comet. He hurried up to the observatory to look himself and declared that it was indeed a comet. This discovery entitled Miss Mitchell to the gold medal that had been offered some Friday evening at eight o'clock, until years before by the king of Denmark to the first discoverer of a tele comet, and it was struck off and for-

Lacked Winning Nerve,

"When I was a racing fiend," said the old telegrapher, "I one day got a tip by wire from an operator, a friend of mine in Philadelphia. It read: 'Lillian K sure! Get in with both feet!' ! fancied Lillian K myself, so I pawned my watch, borrowed all I could and went to the poolroom. The race was due in about half an hour, and Lillian K was up in the entries all right, but there were no odds against her.

"So I says to the man at the desk, 'What's the odds on Lillian K?' He looked at me like he was too tender hearted to rob a 'come on' and pitched me over a blank ticket and says carelesslike: 'Make out your own odds. I'll take 'em any way you fix it.'

"That was too much of a jolt for me. and I told him to hold on to the ticket for a minute while I went out to see a man. I went out and took a drink and tried to figure whether the man was four flushing or whether I looked any greener than I felt. Then I came back and tried to get my roll out of my pocket, but it wouldn't come, and finally I sat around and watched the report come in, and put me on the blacklist if Lillian K didn't win at 200 to 1, and the only man on it was a little humpbacked shoe pirate with his box under his arm and a dollar in dimes, nic' and coppers."-Washington Star.

frish Trust and Distrust.

The most trustful people in the world in money matters are the Irish. A stranger can go into any shop and get a check cashed without the least difficulty, though the proprietor never saw him before and never heard of the drawer. Bank notes are very largely used, as almost every bank in the country issues notes worth £1, £2, £3, £5 and upward, and they are all looked upon as being quite as good as gold.

But Bank of England notes, even in the large towns, are looked upon with suspicion, while in remote places people won't take them at all. It is said that this suspicion of English notes is hereditary.

From the time of James 11 up to 75 years ago the law was such with regard to currency that if an Irishman wanted to pay £100 in England he had to remit £118 6s, 8d., while if he were being paid a debt by an Englishman he received only £85. Naturally he thought rather badly of English money. and in the 190 years during which this state of things continued the Ir'sh people became so deeply convinced that still regard the Bank of England as a corporation of robbers.

The Jews In Frankfurt.

George Brandes thus describes the position of the Jews in Frankfurt, Germany, at the beginning of the nineteenth century: "All Jews were forced to live in the narrow, miserable, overcrowded Judengasse (Jew street), their sole abode since the year 1462. At the beginning of night all the inhabitants of the ghetto were locked in. They were not allowed to use the sidewalk while walking in the street in the daytime, but had to take the middle of the street. They had to remove their hats before every passerby, who would call out, 'Jew, make your bow!'

"To prevent too large an increase not more than 14 couples were permitted to marry in any one year. On every festive occasion they were driven into the ghetto. On Sunday the gates were locked regularly at 4 o'clock, and no one was allowed to pass by the guard for the purpose of mailing a letter. One general rule was 'No Jew allowed on a green spot." Napoleon abolished this state of affairs in 1810, but it was restored after his downfall.

A Suspension of Sentence

For 25 years Squire Quigg held the office of justice of the peace in Doniphan county, and in the early part of his administration he held the idea that a justice had as much jurisdiction as a district court. Once a shooting scray & occurred in the township, and the culprit was brought before the squire for preliminary examination. After listening to the arguments the squire ordered the prisoner to stand up. He then said, "Mr. Prisoner, it is the sentence of this court that you be hanged by the neck until dead, dead, dead." Turning to the constable, the squire said: "Take this prisoner outside and hang him to the tree in the yard. There

is a rope halter in my buggy." The constable made a move for the prisoner, and then the squire, taking a second thought, said, "Mr. Constable, I guess you had better not hang the prisoner until we see whether his-victim

Miss Brooke, the English actress, once gave a couple of seats for the theater to her landlady, who had never seen her on the stage. On the followmg day the landlady seemed to be satisfied with the play, but she did not give any opinion of Paula. So Miss Brooke asked her the straight question, What did you think of me?" the landlady exclaimed with a bland, admiring smile: "Oh, Miss Brooke, dear, you're far too good for the stage!
